*Welcome to
La Casa Verde*

A guide for
Parents

WHY?

For some children, being a member of a large class in school can present difficulties.

(For a number of reasons, children may have difficult settling in school.)

This has huge consequences on what they will achieve. It has been shown that some children benefit from the support 'La Casa Verde' can offer.

WHAT DO WE DO?

We can provide an environment which has elements of both home and the classroom. The curriculum features structured play and many practical experiences, including various educational outings. There is particular emphasis on the following areas:-

- . Maths development
- . Language development
- . Task completion
- . Personal targets

There is close liaison between the child's class teacher and "La Casa Verde" staff. Your child will spend part of each day in "La Casa Verde"

PARENTAL INVOLVEMENT

It is important that parents are involved. You can contact us by telephoning the school, making an appointment or by visiting "La Casa Verde" on Thursday afternoon between 2-3pm.

We will run classes where together, we can explore ways of how best to manage your child's needs. You will receive regular progress and achievements and will be consulted about your child's return to full time, mainstream class.
